

# Technical Translations

La Strada del Successo

# The price of being misunderstood.

There's no room for ambiguity, or error, in technology-driven companies such as yours. Translation of technical publications, marketing collateral, proposals or manuals into other languages must be flawless and cost-effective. That's where we come in.

Our knowledge of what works and what doesn't in specific countries is applied to all your documentation. In short, we ensure that your global communications are as effective abroad as they are in the U.S.

# The more horses the bigger the bang!

Not only do we have on-site presence in Europe and China, we have more than 3,300 translators, editors and interpreters, around the world, at your disposal.
